## Tul Showcases the Latest Products & Technologies at CeBIT 2005

*Presenting itself as the 'Unlimited Technology Solution Provider'*

TAIPEI, TAIWAN (4<sup>th</sup> March, 2005) – Prior to the opening of CeBIT 2005, Tul Corporation officially announces its participation in this most prestigious and largest IT tradeshow. Highlighting the theme -- '**Unlimited Technology Solution Provider**', Tul will showcase its latest and full-line products and technologies to the worldwide buyers and users in booth A29, Hall 23 from 10 -16 March in Hannover, Germany.

Customers, press and buyers will be able to see an eye-freshening design in Tul's booth this year. Taking in its famous brand – PowerColor, Tul's booth primarily uses black and red colors in demonstrating its corporate identity. The two-floor layout provides spacious and comfortable meeting area. The high ceiling and gorgeously-polished lighting represent Tul's simple yet focused believes in providing unlimited technology solutions to users.

As for product solutions, Tul will demonstrate its complete graphics boards with ATI's chipsets and technologies, from the price-performance to enthusiastic segments, in both live systems and static displays. New products include the recently revealed PowerColor X850, X800 and X700 AGP solutions, the X300 SE HyperMemory™ series, and the X700 Silent Cooling System (SCS) edition. It is also worth to mention that Tul will reveal its '*Lead Free*' technology in the most up-to-date products. Ted Chen, C.E.O. of Tul Corporation, states, "We position ourselves as a No. 1 graphics cards provider, and this is the kind of perception visitors will be able to obtain from Tul's booth this year."

### TUL CORPORATION

Other than graphics boards, Tul will exhibit its newest mainboard and multimedia product lines in order to offer users total technology integrations and solutions. In the center of the booth, Tul will also display its Thin Client products with a variety of new ID designs.

Besides the product demo, Tul has prepared two live systems and plasma screens that integrate the most powerful graphics boards by PowerColor for users to experience the unleashed gaming. Moreover, there will be a dedicated room, decorated into a cozy environment, to illustrate how Tul's multimedia products, such as the Tul Theater 550 PRO TV tuner card, can turn the family room into a brilliant multimedia center.

Because of its close business relationships, Tul has the advantages of joint-promoting its brand and products with major vendors like AMD, ATI, CyberLink, ULi and etc. this year. That means, CeBIT participants will be able to appreciate Tul and its VGA brand – PowerColor – in Hall 2, Hall 22 and Hall 27, in addition to Hall 23.

Since its corporate name and identity change with a successful announcement last year, Tul is ready for another exciting and triumphant exhibition as the '**Unlimited Technology Solution Provider**' this year at CeBIT 2005.
